Cassida Food Grade Products

Fuchs Lubritech has recently purchased Shells entire Cassida food grade division, and now has a comprehensive range of food grade products for all applications. The product will continue to be marketed in Shell containers until October 2011, when the changeover to Fuchs Cassida packaging will be complete.

All Cassida stock will be fully imported from Fuchs newly-built dedicated food grade production plant in Germany.

Please Note:

Most of the products on this list are manufactured by Fuchs Lubricants at our Johannesburg branch and are available ex-stock. Certain items are made to order and there is a 2 week lead time, depending on the availability of raw materials.

New products are being added to our range on a regular basis. Please visit our website at www.fuchsoil.co.za for the latest product additions and check which products are available on import from Germany.

Product Data Sheets containing specifications and OEM approvals are available for all products and can be downloaded from our website at www.fuchsoil.co.za
